

A PROVEN WINNER FOR SALTY CONDITIONS

High salt and high water table conditions create problems for turf managers up and down the front range of Colorado. Korby Sod has developed El Salto using a proprietary 6-way blend, creating a stunning performance turf that will withstand salty water issues.

- 6-way Bluegrass blend for Salt Soil conditions
- Excellent choice for the Rocky Mountain region
- Economic—medium water saver
- Full sun to partial shade
- Beautiful & Dense medium dark turf

The seed varieties used are top-rated, based on NTEP testing. (*national testing agency of major turf grass species*). Sod with confidence!

Recommended for: Residential & Commercial areas with medium to high sandy, loamy and saline soils.

EL SALTO

Bluegrass Blend
