

Our New Drought Tolerant Colorado Native Grass

Colorado Native Grass is our newest variation that is drought tolerant, saves water, AND is considered a sustainable turf. This grass will help reduce your water bill and it requires less fertilizer. It is a beautiful dark green color making your yard not only look great but will also benefit the environment!

- High Quality Dark Green Color- Better than Blue Grama & Buffalo Grass
- Stays Green Longer (into Fall) & Greens Quicker (into Spring)
- More Durable than Blue Grama & Buffalo Grass
- Great Alternative to Kentucky Blue Grass- Saves Water with the Bluegrass look
- Drought Tolerant
- Water Savings
- Requires less fertilizer

Our Colorado Native Grass is sold exclusively at Korby Sod LLC.
